

مشاريع طلبة علوم الحاسوب للعام الدراسي 2019-2020

اسماء الطلبة	وصف مختصر	عنوان المشروع	اسم التدريسي
سجاد مؤيد , حسن جبارة	An alarm clock that can be controlled by means of a smartphone application	BLE Clock with Arduino and App Inventor	م. علاء عبد الحسين دلج
مصطفى صلاح حسن, كرار محمد عمران	This IoT system monitors the soil moisture using Arduino and sensors. Data are sent to an IoT cloud platform to access it anywhere	IoT System To Monitor Soil Moisture With Arduino	م. علاء عبد الحسين دلج
هدى حسن , زهراء نعيم	Use data encryption standard for encryption image	Image encryption using DES algorithm	م. م زمن عود رمضان
عادل علي , كرار مجيد	Refer electronic managment using technological improve and facility governing process	Electronic managment	م. م زمن عود رمضان
رغد فريح , نور رشيد	This is performed by classifying the data into sensitive and non-sensitive categories using a classification approach, so that only the sensitive data will be encrypted.	A classification method confidential data to enhance efficiency of cloud query processing using AES algorithm.	م.م زين العابدين علي رحيم
كرار عبد الله , سجاد عدنان	Design electronic system using VB and Sql Data base to faciliate the clearance of the employes	Employes clearance system	م سيف علي عبد الرضا
سجاد عبد الله نور عبد القادر	Creat webpage for scientific department and make class, code, video, for the study	Design web site for scientific department to control E_learning	م. سيف علي عبد الرضا
سيف صباح , احمد اسماعيل , محمد كاظم عاصي		Booking system of playground through Online	م.م.الباس خضير يلوي
اسراء جلال , انفال كريم	This project considers the problem of determinizing probabilistic data to enable such data to be stored in legacy systems that accept only deterministic input	Query Aware Determinization of Uncertain Object	م.م مروه محمد عيود
اساور رياض حوراء احمد	Building an integrated electronic system for managing medical clinics	Design and implementation of an electronic clinic management system	م.م مهدي خلف منشد
صفا وليد عيبر حسن	booking rooms online	Mange and reservation of rooms in the Wasit Univerity Hostel	م.م.منار بشار مرتضى
زينب ظاهر فاطمة مجيد	how to use the Game in learning	Gamfication in E-learning	م.م.منار بشار مرتضى
حنين رويح	This project aims to Design and Implementation Database System for a Postgraduate Students of Education College for Pure Sciences- Wasit University. This project using the VB & SQL languages	Design and Implementation Database System for a Postgraduate Students of Education College for Pure Sciences- Wasit University	ا.م.د نصير علي حسين
زهراء عصام جيهان بشار	This project aims to design a social website for graduate students in Computer Science Department. This project using ASP.Net language	Social Website For Graduate Students	ا.م.د نصير علي حسين
